## FANTASTIC PRESS-OUT FLYING BIRDS (PAPERBACK)

Dover Publications Inc., United States, 2016. Paperback. Condition: New. Language: English . Brand New Book. These realistic, full-color paper bird models could not be easier to make -- and they really fly! Simply press along the perforations, fold according to the instructions, add a penny or a dime for weight, then send them skyward in long, straight glides or looping swoops. All of the birds feature captions that include their Latin names and accurate information about their habitats, behaviors, and pointers on where to look for them. In addition to the fun of making and flying models, this book offers a great way to learn how to identify birds. Author and artist Richard Merrill, a former aerospace design engineer, has created vivid and recognizable depictions of the birds plumage. The 24 familiar species in this collection include the Eastern Meadowlark, Baltimore Oriole, and Western Tanager. Some of these birds have decreased in number during recent years and appear on the National Audubon Society's report on endangered birds. This book provides readers of all ages with an opportunity to learn about birds as well as the chance to play with flying paper toys!.
