Bloomsbury Publishing PLC. Hardcover. Condition: New. 320 pages. Dimensions: 9.1in. x 6.0in. x 1.0in. Many Americans believe a future war with a rising China is inevitable. While China hawks argue that China seeks to push the U. S. out of Asia and dominate the world, protectionists contend that China threatens American jobs and prosperity. In this groundbreaking new book, former White House and State Department official Donald Gross challenges the conventional wisdom underlying current policy toward China. He shows how the strategy of seeking to contain China, developed in the Bush administration and accelerated under President Obama, makes America less secure - and weakens the hands of Chinese reformers seeking democracy and human rights. He explains why adopting protectionist measures against China - Americas third-largest export market - harms U. S. prosperity. Gross calls for achieving a stable peace with China and negotiating inclusive free trade agreements that will bring greater American prosperity - consistent with principles for good Sino-American relations advanced by presidents from Nixon to Clinton. Sure to provoke controversy, The China Fallacy is critical reading for anyone who wants to understand past, present and future U. S. policy toward China. See [donaldgross.net](http://donaldgross.net) This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
