John Hunt Publishing, United Kingdom, 2012. Paperback. Condition: New. Language: English . Brand New Book. The Astrological dynamics of the Universe looks at how the astrological cycles of planets in signs have has a major impact on the Western World since the period of 1970 to 2020. Relating how particular planetary cycles in the last forty years have changed our society can give us an indicator of what to expect and how we will respond over the next eight years. The book includes the natal charts of the UK and the USA with an explanation and predictions. There is also a chapter on how each of the twelve zodiac signs can survive and get the best from the next eight years. The book also looks at aspects, houses and historical and cultural reference points from the past to the present. The book is designed for astrologers and anyone who has a little astrological knowledge can pick up this book. The ethos of the book is to show how astrology works as a collective unconsciousness tool that has a direct bearing on humanity as a whole. The idea for the book came from my regular astrology column in the Watkins Review - Mind Body Spirit magazine which has developed quite a cult following with positive feedback.
