American Psychological Association, United States, 2011. Hardback. Condition: New. Language: English . Brand New Book. This edited volume moves beyond social psychology s traditional focus on prejudice reduction, to explore novel approaches to improving relations and fostering empathy between members of socially dominant ingroups and oppressed/victimized outgroups. Moving Beyond Prejudice Reduction examines the dynamics of attitudinal change from the individual to the group levels and proposes a proactive analytical framework that scholars and researchers on ethnic/racial identity, intergroup contact, and social conflict can use to improve relations between groups. The contributors to this volume explore these issues across three theoretical and conceptual dimensions: \* reconceptualizing how we think about intergroup attitudes \* examining motivations and expectations across group boundaries \* promoting closeness and inclusion in cross-group relationships The book s final grouping of chapters applies these concepts to forgiveness, reparation, and reconciliation among different ethnopoltical groups in postconflict societies. Specific case studies include Arab-Israeli relations and post-Pinochet Chile.
