Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In the first book about  
nurse/patient relationships To Nurse Means to Nurture: The Need  
for Nurses to Comfort Their Patients I wanted to prove by  
research that it is in fact the responsibility of the nurse to  
comfort their patients and that includes being willing to touch  
their patients and show them affection. In this book, I am  
showing how the nurse is the mother surrogate but that the  
team of nurses is the pseudo family of the patient and all of  
them are supposed to comfort their patients and show them  
affection. I also wanted to show how nurses are supposed to  
allow the patient to regress and act childlike and be able to ask  
childlike requests for their childlike needs. And, if at any point the  
patient should say or do anything to offend the nurse, they are  
to try to figure out the cause of the behavior that offends them  
based on the patients own individuality and not what they may  
falsely assume they mean. If they are offended they need to blow  
it over and be...
