Patrick Costello, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In this book, Patrick Costello, a practicing Certified Financial Planner(tm), shows busy investors how to implement a socially responsible and sustainable investment (SRI) strategy. Without spending an inordinate amount of time or becoming an investing expert, everyday investors can align their investing process with their personal ethics and values while earning a competitive return. Additionally, Patrick introduces the concept of Green investing, which is fundamentally about investor empowerment. Green investing, with socially responsible and sustainable investing at its core, goes beyond investment selection and encompasses the totality of the individual s investing experience. Investment professionals calling themselves Financial Advisors may in fact be nothing more than salesmen, eager to promote investment products of dubious value that pay high commissions. A Green investor is armed with the knowledge required to sift through financial service propaganda and media noise. She has the skills to select a financial professional who puts her interests ahead of his...
