50 YEARS OF ANDERSON LOCALIZATION

World Scientific Publishing Co Pte Ltd. Paperback. Condition: new. BRAND NEW, 50 Years of Anderson Localization, Elihu Abrahams, In his groundbreaking paper Absence of diffusion in certain random lattices (1958), Philip W. Anderson originated, described and developed the physical principles underlying the phenomenon of the localization of quantum objects due to disorder. Anderson's 1977 Nobel Prize citation featured that paper, which was fundamental for many subsequent developments in condensed matter theory and technical applications. After more than a half century,...
